

LBUA

Lamar Baseball Umpire Association

Umpire Uniform Policy

CAPS: Caps will be navy blue or black fitted wool or mesh. When you are the plate umpire, you will wear your hat under your mask, bill facing forward.

SHIRTS: All umpires must have a navy blue umpire shirt, which is the default color. Umpires may also choose optional colors: Powder Blue, Cream, Red, or Black (The Powder Blue comes in three styles of trim: Red/White/Navy, Black, or White/Navy. (Powder Blue with Black trim is recommended). The optional colors may be worn only if the entire crew has the same color.

T-SHIRTS: Under the uniform both officials shall wear an undershirt. The color is determined by the last color of the trim on the outer jersey. If the jersey has black for the trim the undershirt is black and you must wear a black cap and ball-bags (Example: Navy umpire shirt with red undershirt)

BELTS: Black leather, flat, not woven.

PANTS: All umpire pants shall be heather gray. The plate umpire should wear pants that have enough leg room to hide the shin guards worn under the pants (plate or combo slacks are recommended). Base or combo slacks should be worn when working the bases.

BALL BAGS: Bags will be navy, medium heather gray or black, same as the pants. They will be of a material similar to the pants. If two are worn, they will be the same color: if one has a logo, the other will have the same logo. Bags are worn directly over the side belt loops, never to the front or rear. Ball bags are never worn on the bases.

SOCKS: Black.

SHOES: Must be predominately black with any trim being white. Shoelaces will be black. Steel-toed plate shoes are recommended behind the plate. Shoes are to be shined before entering the field of play.

INCLEMENT WEATHER GEAR: The black pullover with white stripes is the preferred jacket. Wear whatever it takes to keep warm under the pullover in extreme cold weather for this area (i.e.: long underwear, red sweatshirts, turtlenecks, etc.). If ski caps or gloves are necessary, wear a dark color (navy or black).
